LENOVO THINKPAD SL410 AND SL510 SERVICES.

THINKPLUS™ SUPPORT	THINKPLUS™ PROTECTION	
Base warranty extensions prevent costly out-of-warranty repairs. Warranty upgrades allow a higher level of service at any time during your warranty period. It provides convenient and dependable support with peace of mind. **The ThinkPlus Warranty:** • Provides investment protection » Warranty is aligned with depreciation schedule • Offers convenient depot or on-site service • Provides service coverage » Choose level of service and responsiveness as per your requirement » Next business day, 9 x 5 x 4 and 24 x 7 x 4 • Offers bundled upgrade options for warranty protection for laptops • Includes post warranty upgrades for 1 and 2 years		Accidental Damage Protection coverage, coupled with warranty, provides a "no fault" service coverage plan. This service provides an unlimited number of repairs over coverage term and a single replacement (if required) with a comparable system. Typically the cost of repair for damage from drops, spills, falls, depending on damaged components, is $400 to over $1000. Accidental Damage Protection is a small investment to cap unplanned expenses.
		Onsite warranty upgrades provide for a 24x7 phone support line for problem diagnosis and resolution if possible. For issues requiring an onsite technician this level of service provides for the dispatch of a Lenovo certified technician to your location on the next business day (in most locations).
		Priority Support provides direct phone access to advanced level technicians to assist in break/fix, warranty problem determination and resolution via phone. Web based tracking and escalation of issues along with support for preloaded software (consult list of applicable programs, assumes customer has license to software) is also provided.
		Lenovo Online Data Backup and Recovery provides a secured, automatic remote storage solution for business documents and data. Backed by industry storage leader EMC, this offering provides 256-bit encryption and a private encryption key for security that no one other than you has access to for the ultimate security solution. It has an intuitive interface allowing for configuration to your requirements and automated backups to minimize user intervention for routine backups.
		The Secure Business bundle provides a value with three of the most popular services to protect HW and data. The bundle includes an onsite warranty upgrade, accidental damage protection and 50GB of Online Data Backup storage capacity and is priced at an approximate 20-30% discount over the a la carte offerings.
		Hard Drive Retention provides those who place the utmost importance on privacy of data the rights to physically retain their hard drive in the event of failure or replacement. Without this coverage, while a failed hard drive replacement would be covered
